

After all those years you've spent cleaning your room, doing your homework, and eating your vegetables, we declare: **Enough living your life with purpose!** It is really time for you to do something pointless and fun, and if you make someone's day today just a little happier because you've done this Renegade Made Craft and Activity Kit, then we will release you from your vegetable eating responsibilities for the day. Really.

Start customizing your kit at home. Decorate your bandit mask with the enclosed stickers to wear out in public to perform your Renegade Made capers. The focus on these activities is to do them because they are creative and fun, and make people happy when they realize that this was done anonymously, just to spread some joy.

Your Made You Look Kit Includes:

- 13 flyers
- 5 postcards
- 3 "To Do Lists"
- 1 double-sided poster
- stickers, paper strips, and markers for decorating
- tape for hanging flyers
- 2 bandit masks and bandit mask stickers

PREPARING the FLYERS

These “fake” flyers deserve a second look

Pick A Fortune, Any Fortune & Double Dog Dare You:

Locate the printed sheets with all of the red FORTUNE COOKIE FORTUNES and the blue DOUBLE DOG DARES, and carefully separate all of the strips at the perforations. Pick your favorite red fortunes to load through the slits in the back of the PICK A FORTUNE flyer so that the

“pull” tab peeks out from the front of the flyer.

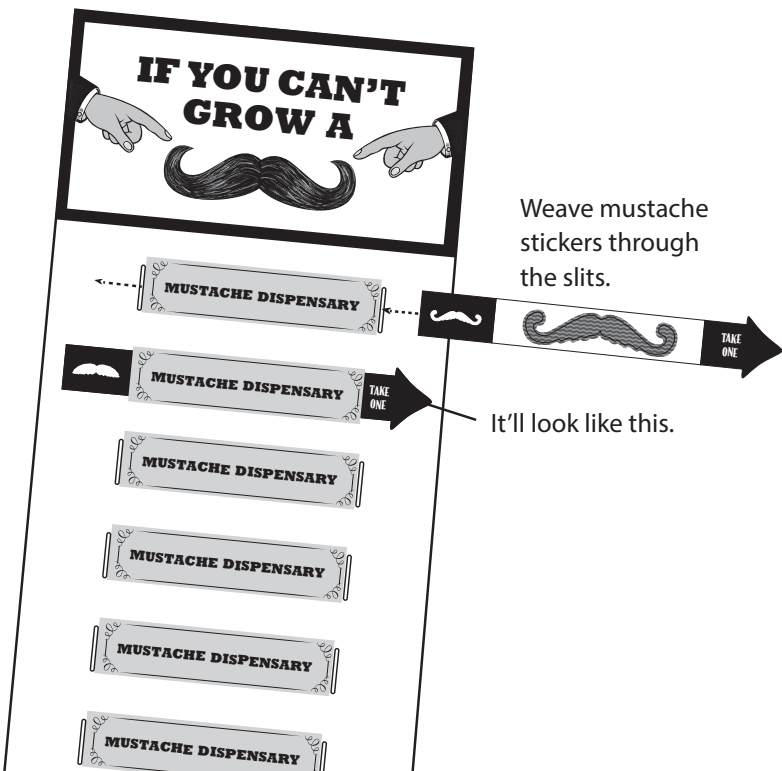

On the Double Dog flyer, poke just the blue arrows on the strips out to the front of the flyer.

Fold the bottom portion of the flyer printed FOLD HERE toward the back of the sheet so that you cannot see it, and so that it holds the fortunes and dares in the dispensing slots. Secure the folded part of the flyer to the back with one or two of your tape tabs, but make sure that it does not block the path of any of the strips from being pulled.

MUSTACHE DISPENSARY:

Separate the TAKE ONE mustache strips from the sticker sheet at the perforations, but make sure that the mustaches stay attached to the backing. Follow the illustrations below to load the strips into the Dispensary. When it's loaded properly with all of the stickers, you will see the black and white mustache silhouette, each box that says Mustache Dispensary, and the black and white "TAKE ONE" arrow. The colorful mustache sticker will be hidden behind the flyer until someone pulls the tab.

TAKE WHAT YOU NEED:

Carefully separate the perforations on each of the strips of the flyers, leaving the strips still attached to the main sheet. Collect small items from your home or a store that you think people would appreciate receiving from a stranger. Attach them to the strips with the enclosed tape tabs. Think of something that most people can use; a wrapped granola bar, two quarters, a colorful marker or pen, a friendship bracelet that you made, a fresh flower, a new toothbrush in its package, a pack of chewing gum, a bandage strip, a homemade bookmark or magnet. If the item is too large or cannot be taped, you can always staple a baggie onto the strip and fill it with the item, just make sure that people can easily tear off the tab to get the item. Be creative. Be funny. Be generous!

REWARD: MY PET FLY HAS RUN AWAY AGAIN:

Look through your preprinted FLY REWARD STICKER SHEET, and pick your favorite option to fill in the blanks for each category on your flyer. Carefully place the sticker on the coordinating line, to fill in your customized funny story. You can also fill in the blanks on the reward sheet with your own great ideas.

CAT FOUND:

Place some of the scratch n' sniff skunk stickers onto the white space around the skunk picture. Make sure that you do not cover up the SCRACH & SNIFF sign, so that people can discover the your "smelly cat" for themselves.

POSTING THE FLYERS:

Once they're completed, put on your bandit mask and take your flyers out into the world to post them where they can be discovered. Find a Public Notice Board at your local grocery store, library, or coffee shop. Hang them at a covered bus or train stop, or attach them to fence or telephone pole. Use a few of the tape tabs or bring a few thumb tacks along from home to hang them, but remember to ALWAYS BE RESPECTFUL OF PEOPLE'S PROPERTY. You want to hang these so that they get seen, but you don't want to destroy anyone's private property or make anyone angry. If you are at a place of business, you might want to ask the manager if it's OK that this goes up on their bulletin board. You should also make sure that you go back and collect your flyer after a few days. Littering doesn't make anyone happy that you were there.

POST CARDS

Your kit contains 5 inspiring and funny postcards for you to leave anonymously for someone to discover. Color them in, and if you are so inspired, fill out a positive message on each of the cards, but **DON'T SIGN YOUR NAME**. You can address and mail the cards, but it's just as easy to leave the cards for someone when they are not looking. Leave one under someone's windshield wiper on their car, stealthily leave one on your teachers desk, or tape one to your garbage can top for your refuse collector to find. Everyone enjoys being appreciated.

POSTER

Take our two sided poster and give it a little flair by decorating it with your enclosed markers. Put your bandit mask on, and stand in a **SAFE** spot where people will walk, bike, or drive by. Hold up the sign, and see how many people you can get to honk or wave at you. There. You just made someone happy- isn't that fun?

FAKE LISTS

Have you ever found a piece of paper left behind in a shopping cart and wondered exactly who wrote the list?

Well we came up with some truly strange lists for you to leave for someone to discover and give them a laugh. Initial the back, and write a little note if you wish, and leave one in a grocery cart or basket, on a shelf at the library, or in a conspicuous spot at the mall. Who knows, your mom may come home and say that she just missed a zombie at the store while picking up your ointment.
